

Low Density Card (Small Storage Capacity)

Blank White Smart Card are re-writeable. They are used in almost every type of TurboChef Oven except **Starbuck NGO Ovens**.

High Density Card (High Storage Capacity)

Blank Gray Smart Card are re-writeable. They are used in Starbucks NGO for the purpose of loading Menus.

Starbucks Logo Cards (High Storage Capacity)

Starbucks re-writeable Menu Card. It's a High Density even though is a white card; this card was made by a 3rd party (Not by TurboChef).
